Chennai, TN • 9361573798 • sailakshman212005@gmail.com • github.com/imSai-py • linkedin.com/in/sai-lakshman-390b08295 • [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate with production-level full-stack development experience across Python, Flask, Django, Spring Boot, React 19, and TypeScript. Designed, built, and deployed ExpenseSnap — a production-grade AI-powered PWA integrating Google Gemini Vision for receipt OCR, Firebase Cloud Functions, PostgreSQL, and Web Push notifications. Certified in Java Full Stack Development (Spring Boot) and Python. Consistently delivers clean, scalable architecture with strong command of REST APIs, OOP, OAuth 2.0, database management, and cloud deployment workflows. Seeking an internship or entry-level role to contribute to high-impact engineering teams.

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, JavaScript

Frameworks & Libraries: Flask, Django, Spring Boot, React 19, Tailwind CSS v4, Framer Motion, SQLAlchemy

AI & Data: Google Gemini Vision API, LLM Chat Integration (SnapBot), Pandas, ReportLab, Matplotlib

Databases & Cloud: PostgreSQL, SQLite, MongoDB, Firebase Hosting, Firebase Cloud Functions, Render

Tools & Concepts: Git, GitHub, Vite, REST APIs, PWA, OAuth 2.0, Web Push (VAPID), OOP, MVC/MVT, CI/CD

Soft Skills: Problem Solving, Communication, Teamwork, Time Management, Adaptability

EXPERIENCE

Full Stack Developer Intern • RETECH Solutions, Chennai

June 2025

- Designed and deployed UserProfile Manager, a full-stack web application using Python and Django, implementing user registration, secure session-based authentication, profile photo upload, and dynamic bio data management.
- Improved data handling efficiency by 30% through an optimised Model-View-Template (MVT) architecture, server-side form validation, and structured SQLite database query patterns.
- Managed the complete development lifecycle — from backend API design and database schema to frontend HTML/CSS rendering and production deployment — maintaining clean version history with Git.

PROJECTS

ExpenseSnap (Live PWA) | [Source Code](#) | React 19 • TypeScript • Python Flask • PostgreSQL • Google Gemini AI • Firebase • Web Push • SQLAlchemy

- Engineered a production-grade AI-powered personal finance PWA with a React 19 + TypeScript (Vite) frontend and a modular Flask REST API backend; supports full-stack expense CRUD, income tracking, and a real-time analytics dashboard.
- Integrated Google Gemini Vision API for automated receipt OCR — extracting merchant, date, amount, and category — and built SnapBot, an LLM-powered conversational assistant for natural-language expense entry and spending Q&A.
- Implemented CSV/XLS bulk import with row-level validation, PDF report generation (ReportLab), monthly budget alerts, and Web Push notifications (VAPID); deployed via Firebase Hosting + Cloud Functions with PostgreSQL on Render.
- Architected a modular Flask backend (auth, expenses, AI, notifications) with Google OAuth 2.0, Flask-Migrate, RESTful Blueprints across 20+ endpoints, and React Context API state management across 6 feature modules.

EDUCATION

B.Sc. Computer Science • Vels Institute of Science, Technology & Advanced Studies (VISTAS), Chennai • CGPA: 7.62 / 10

2023 – 2026

HSC (Higher Secondary) • Sri Sankara Vidyashramam Matric. Hr. Sec. School • 61.17%

2022 – 2023

CERTIFICATIONS

The Complete Python Bootcamp: Zero to Hero in Python • Udemy

July 2025

Comprehensive course covering Python 2 & 3, Object-Oriented Programming, Decorators, Collections, DateTime modules, GUI Applications with Tkinter, and hands-on project-based problem solving including games and automation scripts. Applied skills include file I/O, error handling, and building reusable modules.

Java Full Stack Developer • AISECT India

March – May 2026

Covers Core Java fundamentals, Object-Oriented Programming (OOP), Spring Boot framework for REST API development, backend application design, and Frontend Development essentials including HTML5, CSS3, and JavaScript. Gained practical experience building full-stack Java web applications from backend to browser.

DECLARATION
